Mr. Bob Anderson
A-1 Disposal
P.O. Box 300
Plainwell, Michigan 49080

Dear Mr. Anderson:

Based on the analysis of Sample CWM #4791 from Accru Pac, waste water, this material has been found to be unacceptable as received for disposal. It is rejected for co-disposal in bulk at CID Landfill due to the high organic solvents content (10%). This material should go to E.S.L., located near Joliet, Illinois, in drums for disposal.

Per Shirley Koegel's conversation with Carol Schmatz of Accru Pac, we are writing up the permit application to read DRUMS to be disposed of at E.S.L. Landfill, Route 1, Box 109, Laraway Road, Elwood, Ill. 60421.

If you have any questions, please feel free to call.

Sincerely,

Chemical Waste Management of Illinois

William R. Karpas
